

### **Press Release: "Merciless!"**

Johnny Armstrong enjoys a challenge; hence he performs stand-up comedy in Germany (which is akin to playing a first-person shooter's single-player campaign on "legendary"). Aptly, his modus operandi is to take aim at life's traumas and fire off his gags with a relentless, machine gun delivery. To mix metaphors: his set is a manifestation of inconsequentiality, marinated in self-deprecation, seasoned with wordplay and served with a hefty portion of black humour.

*Merciless!* is the English-language version of Johnny's solo show, featuring his best gags plus all of those that only work in English.
